PROFILE

I am a freelance Sound Designer based in Mumbai and working in the field since 2012. I have worked for feature films, documentaries, web series, commercials and 360 degree VR content. I have also worked as a sound assistant and boom operator for content across platforms. Having filmed with crews from different parts of the world, I understand the importance of diligence, teamwork and a positive attitude. Whatever the location or scenario I strive to get best sound results on location and create a symbiotic work environment.
